DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9, drawn to printing method using a fixing liquid, classified in class 347, subclass 98.
- II. Claims 24-27, drawn to printing apparatus to detect absence of fixing liquid, classified in class 347, subclass 19.
- III. Claims 17-23, drawn to medium, classified in class 347, subclass 101.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions, printing method of invention I can be performed by an apparatus of invention II which does not necessarily have to include a sensor array to detect an absence of fixer. Similarly, invention I does not require medium of invention III which includes a Cartesian coordinate pattern. Finally, apparatus of invention II does not require medium that includes a Cartesian coordinate pattern and that the apparatus can print on other types of medium.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and so on, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
